Cloud Platform Benefits

Core Benefits

– **Performance & Autoscaling**
Infrastructure with almost infinite scale, 4 layers of optimized caching: Varnish, Memcache, PHP, & Drupal, Built-in Global CDN, Advanced Premium CDN, Node.js support

– **Guaranteed Reliability**
99.95% Uptime SLA, Multi-zone availability, Multi-region failover clusters, Disaster recovery services

– **Execute Your CMS Migration**
Migrate from any CMS to Drupal, Migrate to Drupal with automated tooling

– **Low Code Site Building**
Enable business users to build and deploy content, Free up critical development resources

– **Search as a Service**
Solr search as a service, Result filtering and weighting, Content Recommendations, Multi-entity and attachment searches, Better knowledge of data structure

– **World Class Support**
Expert Drupal support available 24/7/365, Custom solution planning and implementation, Dedicated technical account managers

– **Training & Certifications**
Drupal & Acquia product training with Acquia Academy, Expert training & advice from Professional Services, Acquia Certification program

– **Support for Architecture**
Graph QL Support, PwA SPA Support, Decoupled

– **Enabled Security Features**
Ipv6 support, Shell access via SSH, GeoIP support, Apache mod_proxy support to improve LAMP security, Custom WAF support, Dedicated secure VPCs & VPNs

– **Custom Access Management**
Multi-factor authentication, Role-based access controls, Platform UI/ API IP access controls, SSH IP access controls, SSO integrations

– **Managed Security Services**
Automated Drupal security updates, Platform security audits, Vulnerability scans, White glove platform security updates

– **Compliance Standards**
FedRAMP authorized , PCI, HIPPA, ISO 27001, SOC 1 & SOC 2, GDPR, CSA STAR

Acquia Cloud Platform Provides The Foundation
Take Your Digital Experience To The Next Level

SITE FACTORY   **EDGE CDN**   **SITE STUDIO**   **CONTENT HUB**

Cloud Platform Benefits

Build

– **Create Sites Quickly**
Powerful and flexible CLI tool, Cloud IDEs for Drupal development, Drupal multi-site support, Acquia's opinionated CMS, Low code/no code Site Studio

– **Automate Your Workflows**
CI/CD Workflows - CI/CD via Pipelines & On-Demand Environments, Cloud Platform API - Robust cloud APIs, Cloud Hooks

– **Integrate Application Services**
Build Drupal Modules, Leverage OSS Drupal modules to integrate application services from back-end systems

Run

– **Update Sites Easily**
Development, Staging, and Production Environments, Drag & Drop user interface

– **Manage Your Website Portfolio**
Templatized sites, Site grouping, tagging, and access controls, One-click site sign in, Scheduled code deployments

– **Monitor Your Applications**
Application performance monitoring with New Relic APM Pro, Download, forward, or stream your logs , View Platform Utilization Metrics, Uptime Alerts

Launch

– **Empower Business Users to Create & Update**
Low code/no code site building, Visual and interface that does not require technical knowledge

– **Multilingual Content Management**
Abilities to build and maintain localized sites

– **Automating Marketing Workflows**
Drupal 9 capabilities Content Approval, Staging, Timed Updates, Elimination of bottlenecks for developers/specialists

Extend

– **Extend Your Drupal Application**
Open APIs, Vast network of technology partnerships, Expert account support team to help with decision and execution support

– **Integrate with a Variety of Tools**
Connect to external code repositories like GitHub or Bitbucket, Use Continuous Integration tools like Travis CI and more , Integrate with a variety of local development tools with Acquia's BLT tool, Use Pager Duty via included New Relic subscription, Communicate updates through Email, Hipchat, or Slack

– **Native Marketing Cloud Integration Tools**
Data-driven insights to: Analyze, Personalize, Engage, Optimize
